

Celebrants help families heal with uplifting funerals

When her sister's funeral plans were denied, Pam Vetter became a Certified Funeral Celebrant to help other families create meaningful funeral services for loved ones through creative expression, life stories, and favorite music. Every element of a Celebrant funeral service reflects the lifestyle and personality of the deceased.

Celebrant Pam Vetter helps families start the healing process by involving the family, listening to stories, and turning a vision into a reality. People feel heard in the family meeting. Based on the stories shared, she writes original tributes for personal, inspiring memorials, funerals, and celebrations. Celebrant Pam Vetter helps religious, spiritual, and non-religious families.
